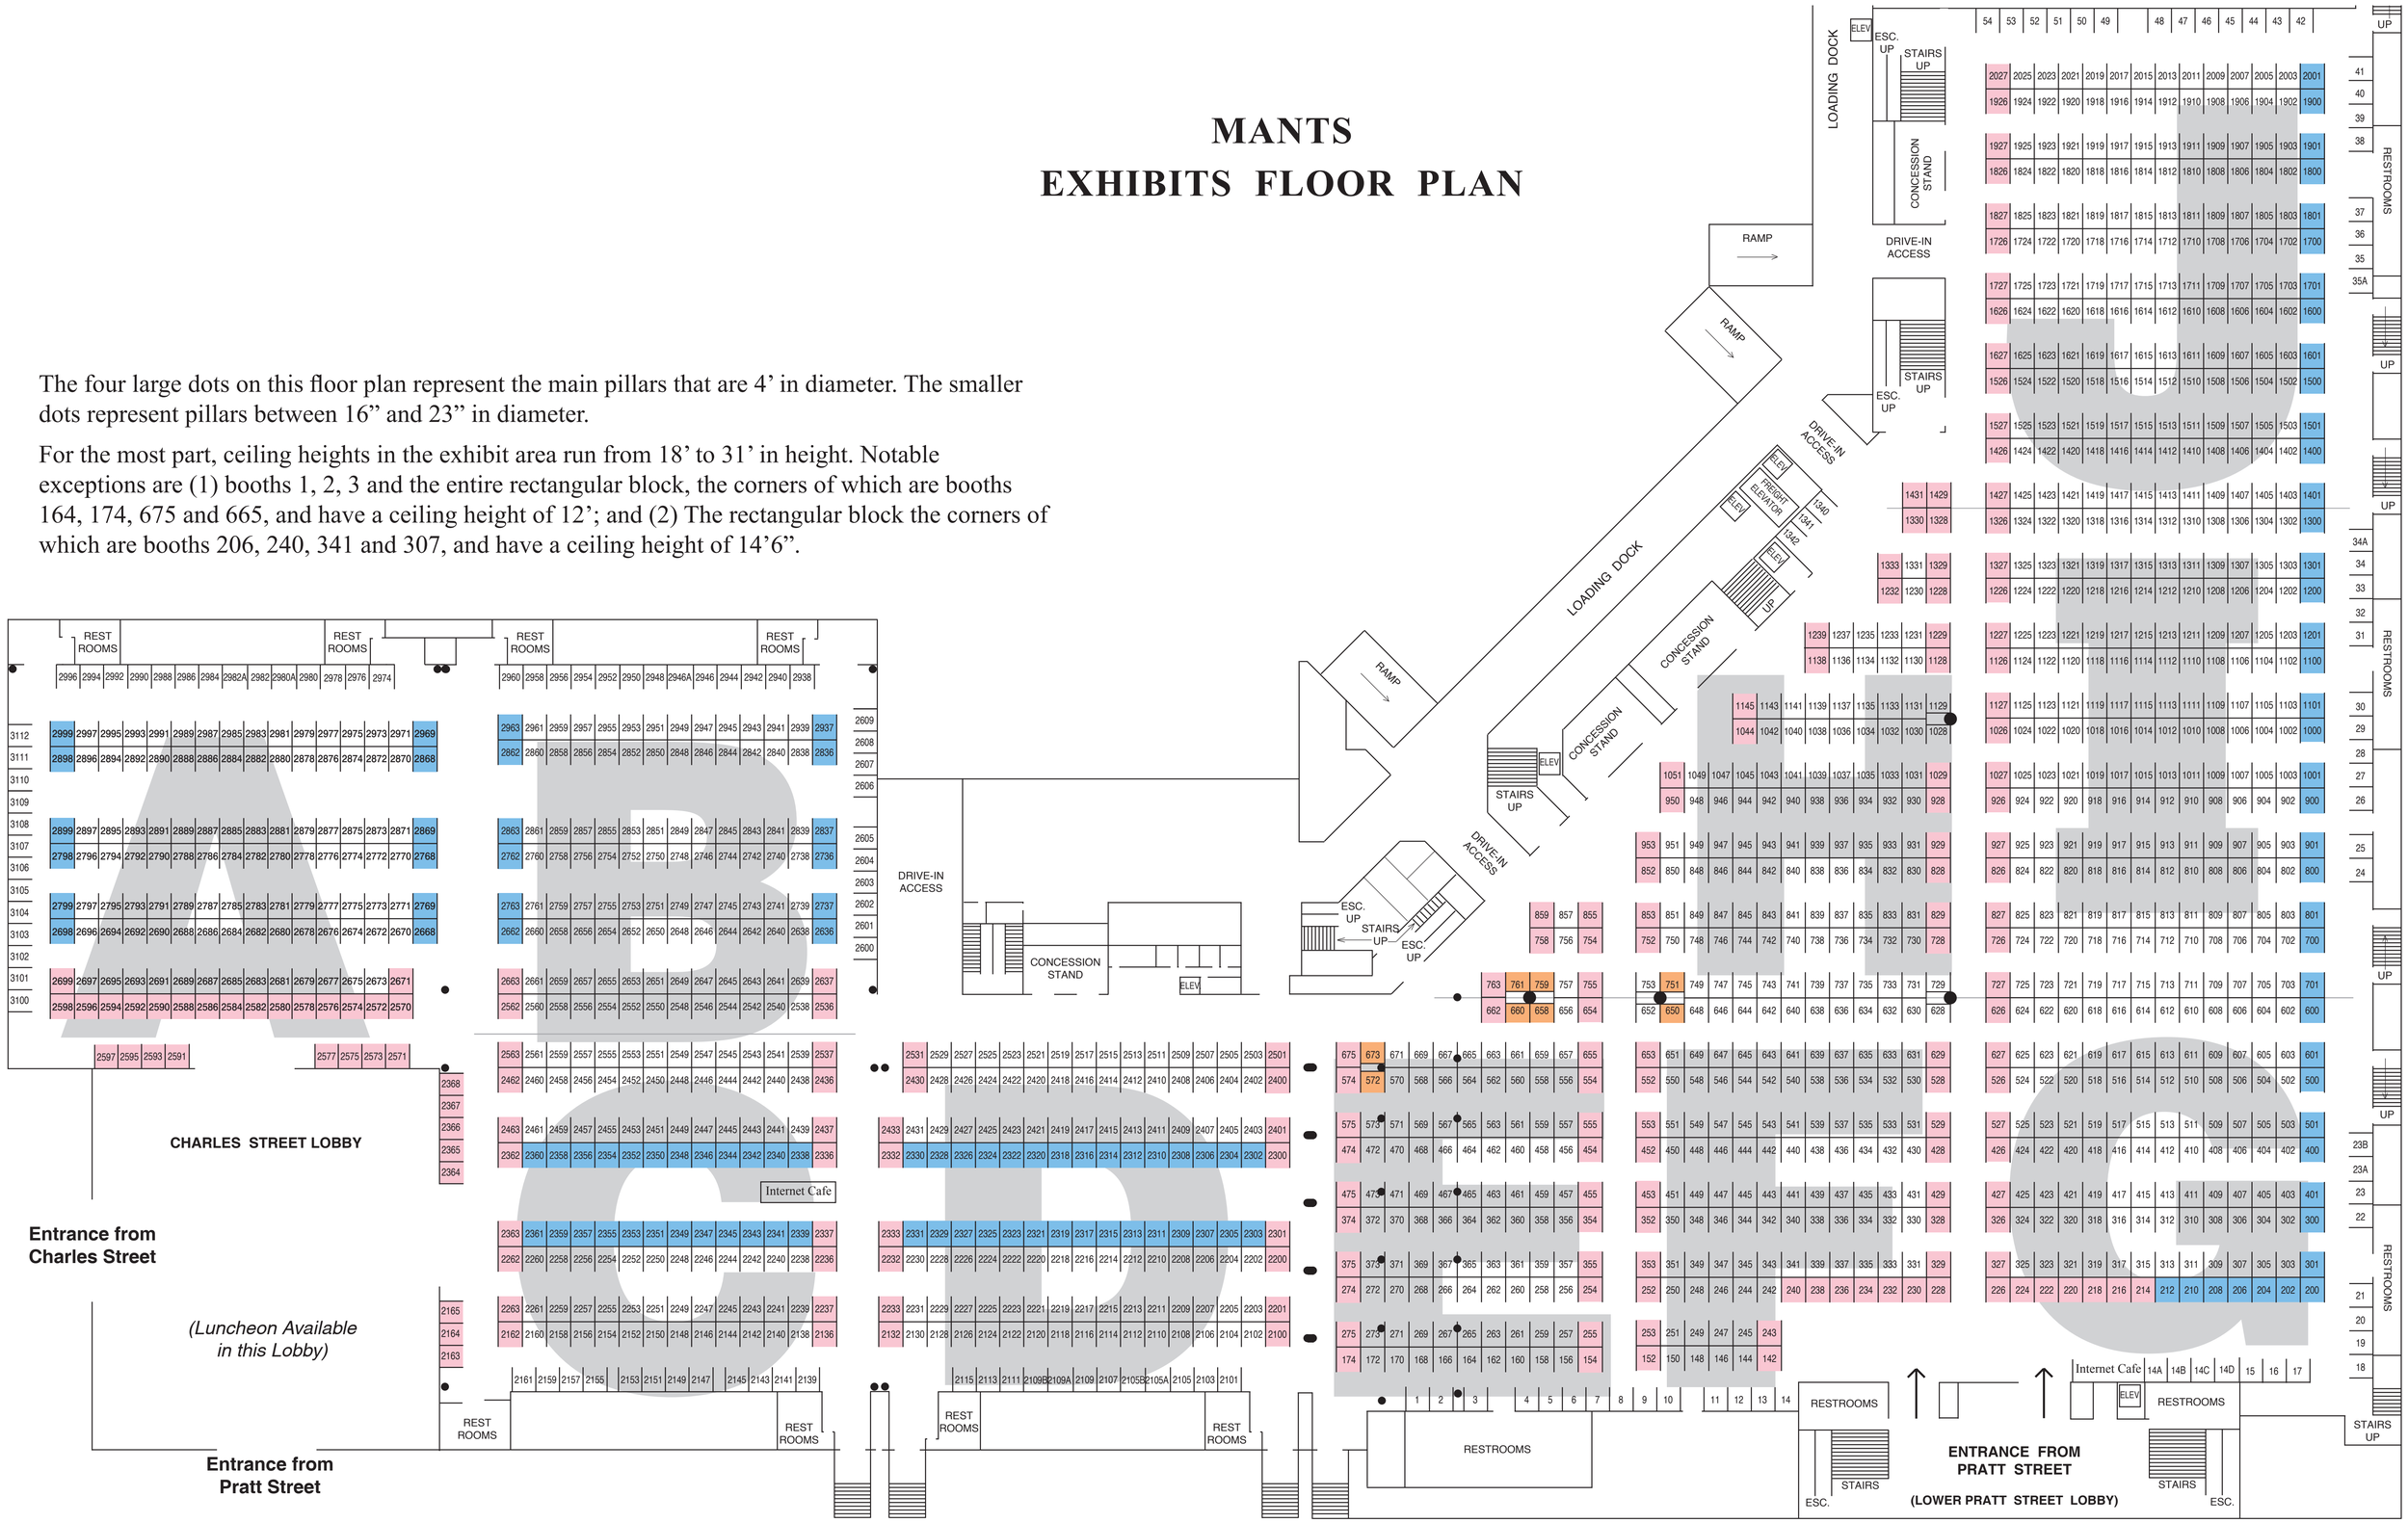
MANTS
EXHIBITS FLOOR PLAN

The four large dots on this floor plan represent the main pillars that are 4’ in diameter. The smaller dots represent pillars between 16” and 23” in diameter.


For the most part, ceiling heights in the exhibit area run from 18’ to 31’ in height. Notable exceptions are (1) booths 1, 2, 3 and the entire rectangular block, the corners of which are booths 164, 174, 675 and 665, and have a ceiling height of 12’; and (2) The rectangular block the corners of which are booths 206, 240, 341 and 307, and have a ceiling height of 14’6”.
